To Whom It May Concern:

Re: Eurogold Civil Engineering Contractors Ltd

We at West Contracting Ltd appointed Eurogold to undertake and complete the groundworks and below ground drainage works at our Skyline Central Development scheme in Manchester for a contract value circa £1.2m

Despite a very demanding Programme requiring a number of critical key client handover dates, not only did Eurogold satisfy all programme requirements but commercially their attitude and approach throughout the administration of this contract we found to be extremely professional and 'client friendly' and very proactive in overcoming a number of difficult site issues encountered.

From the outset Eurogold conducted themselves in a very professional yet accommodating manner despite our ever changing requirements as a client, at no time resorting to any form of contractual correspondence even when the opportunity to do so arose.

It is on this basis that we were then able to settle their final account swiftly and amicably prior to their departure from site and not hesitate in retaining Eurogold for any future works.

It is without reservation that I recommend the appointment of Eurogold by any prospective client keen on securing the services of a very professional and 'client friendly' subcontractor and should any prospective client wish to seek further clarification of Eurogold's performance on site then please contact the undersigned whereupon I would be happy to reiterate the reference outlined above.

Regards,

Jim Loftus MRICS
