

Dear Damion,

Re: ALDI Project, Penamser Road, Porthmadog.-Civils and Enabling Works.

I'm just writing to compliment your roads and sewers gang comprising of Mr.D.Davies, Mr.A.Hand, Mr.G.Connel and machine operator Mr.J.Schofield.

There approach to the work they undertook was professional at all times and there method of work was the one of the best I have seen in years. Each task they performed was executed in a safe manner and as per drawing. At no time did I have to reprimand them over Health and Safety issues and for a Site Manager that is a very unusual occurrence. There general manner and attitude was also of the highest standard and they were also willing to assist others in tasks which were outside there own works.

These men are a credit to you and your company and I hope they are highly valued within your organisation. I would be willing to have these men on any of my future sites and will look forward too working with them once more.

Regards,

D.North WHL Site Manager.
